

ABOUT US

Flight is a community service initiative led by The Rotary Club of Colorado Springs to ensure children receive essential arts and science programs. Flight provides a metaphor for children. Your participation as a Partner and Sponsor can help promote a healthy cocoon for every child we help, encouraging a creative metamorphosis into all each can be!

The net revenue from Flight benefits School District 11 Arts & Science programs and service projects for D11 and the entire city. Examples are need-based and athletic scholarships, outstanding teacher awards, elementary school reading programs, a Mock Trial competition and dental care for children. A portion of net revenue may be allocated to Rotary's Endowment Fund so that these service projects might continue well into the future.

THANK YOU
